Explore the world of science through brilliant projects

ABOUT THE PROGRAM
African Leadership Academy plays host to the Chevron Engineering Leadership Program (ELP), sponsored by Chevron corporation is designed for highly motivated and talented high school students between the ages of 15 and 18 that are interested in a career in STEM (science, technology, engineering and math).

Chevron ELP seeks to develop future African engineers equipped with leadership skills to lead change on the continent. Participants will engage in various engineering and leadership practices as they collaborate in groups to create and design a solution to an important, relevant engineering design challenge, being led by a team of talented STEM educators, leadership experts, and professional engineers.
